Welcome to Hagerty Price Guide, the most accurate, up-to-date, and relevant price guide for those involved in the post-war classic car marketplace. Hagerty Price Guide was originally published under the name of Cars That Matter in August of 2006, and was later renamed Hagerty's Cars That Matter in September of 2008. Currently, Hagerty Price Guide is published three times a year, and it has quickly become an authoritative and respected resource for valuing classic, collectible, and historic vehicles.

Model History

1968 Pontiac Firebird

Specifications:

- 8-cyl. 400cid/325hp 4bbl Ram Air

Pontiac's upmarket version of Chevrolet's Camaro ponycar appeared in mid-1967. Brought to market under John Z. DeLorean's watch at Pontiac, the original Firebird offered deluxe accoutrements, in addition competitive ponycar performance. From 1967 to 69, Firebird offered an unusual single-overhead-camshaft inline six, available with a 4-bbl. carburetor in Sprint models. Pontiac's 326- and 400-cid engines comprised the V-8 offerings. Firebird was little changed for '68, with deleted vent windows and added side-marker lamps among its minor updates. A redesigned SOHC six was touted, while the mid-year 340-hp Ram Air II 400 V-8 reigned as the year's most powerful engine. The Firebird was restyled for 1969. During the year, the first Trans Am Firebird was released; 689 coupes plus eight convertibles were produced. A 400-cid V-8 was standard in Trans Am and Firebird 400 models. The 400 model's optional Ram Air IV V-8 promised 100 mph quarter-mile acceleration. The 1967-'69 Firebirds are relatively scarce, compared to Camaros of the same vintage. The '69 trades just slightly more often than '67-'68 versions. Genuine '69 Trans Ams will always be blue-chip Firebirds.

Vehicle Values*

Value Change Over Time

This graph provides a visual representation of how the values for this vehicle have changed since Hagerty Price Guide first began publishing details for it. Prices assume that the car is a “no-stories” example and that no major modifications to the vehicle are present.

Vehicle Value Detail

The Vehicle Value Detail table enumerates all four condition values for this vehicle since Hagerty Price Guide first began publishing details for it. Prices assume that the car is a “no-stories” example and that no major modifications to the vehicle are present. Review possible equipment that may impact this vehicle’s value under the “Notes/Buzz” heading.

**Please note: All prices shown here are based on various data sources, as detailed in About Our Prices. For all Hagerty Insurance clients: The values shown do not imply coverage in this amount. In the event of a claim, the agreed value(s) on your certificate of insurance is the amount your vehicle(s) is covered for, even if the value displayed here is different. If you would like to discuss your Hagerty Insurance policy, please call us at 877-922-9701.*

Vehicle Condition Ratings:

Condition 1:

Condition #1 vehicles are the best in the world. The visual image is of the best car, in the right colors, driving onto the lawn at the finest concours. Perfectly clean, the car has been groomed down to the tire treads. Painted and chromed surfaces are mirror-like. Dust and dirt are banned, and materials used are correct and superbly fitted. The one word description for #1 cars is "concours."

Condition 2:

#2 cars could win a local or regional show. They can be former #1 cars that have been driven or have aged. Seasoned observers will have to look closely for flaws, but will be able to find some not seen by the general public. The paint, chrome, glass and interior will all appear as excellent. No excessive smoke will be seen on startup, no unusual noises will emanate from the engine compartment. The vehicle will drive as a new car of its era would. The one word description for #2 cars is "excellent."

Condition 3:

#3 cars could possess some, but not all of the issues of a #4 car, but they will be balanced by other factors such as a fresh paint job or a new, correct interior. #3 cars drive and run well, but might have some incorrect parts. These cars are not used for daily transportation but are ready for a long tour without excuses, and the casual passerby will not find any visual flaws. "Good" is the one word description of a #3 car.

Condition 4:

#4 cars are daily drivers, with flaws visible to the naked eye. The chrome might have pitting or scratches, the windshield might be chipped. Paintwork is imperfect, and perhaps the fender has a minor dent. The interior could have split seams or a cracked dash. No major parts are missing, but the wheels could differ from the originals, or the interior might not be stock. A #4 car can also be a deteriorated restoration. "Fair" is the one word that describes a #4 car.
